GARDEN ART

HANDCRAFTED IN NEW ZEALAND

Based in Hawkes Bay, the inspiration for our first range of Garden Art came from the orchards that surround us. Apples, Pears and Cherries along with our Orbs are made from Corten Steel which age over time resulting in the gorgeous colour shown in our gallery photos. They look fabulous poolside as well as on the lawn, deck or paved areas.

Place them together as a group, dot them about your garden, or mount them on a wooden or stone plinth – however you place them they will create a stunning feature and conversation starter in your outdoor space.
